

YOUR HORSE DESERVES THE BEST!

**STRANGLES
AWARENESS
WEEK**

5-11 MAY 2025

B

Boost immunity by vaccinating against Strangles

A safe, effective vaccine was launched in the UK in 2022

E

Engage with trusted information on Strangles

Avoid outdated or inaccurate advice by going to the experts

S

Separate unfamiliar horses

Infectious horses don't always look unwell so take precautions

T

Temperature check routinely

Fever usually appears before disease has the chance to spread
